School Success Plan

Edgewater Elementary

School District No. 6 (Rocky Mountain) is located on the unceded lands of the Secwépemc and Ktunaxa People, and the chosen home of the Métis People of B.C.

Principal Message

Welcome to Edgewater Elementary School!

Edgewater Elementary School, a small rural K-7 school, priding ourselves on being visible and involved in the community. Our student population is growing bringing continuous change. We promotes active, lifelong, holistic learning. Our staff puts an emphasis on developing students intellectually, emotionally, physically and socially.

Yearly, our School Success Plan, is developed by our staff, through extensive planning, collaboration and teamwork, to meet the individual needs of all students. Our plan is regularly reviewed and adapted as needed to ensure each child continues to reach their potential in all areas of personal development.

This year our staff has recognized a few areas to address and a few areas we need to remain focused on. We will continue to concentrate on the core foundations of numeracy and literacy with an emphasis on numerate thinking and reading development. We also understand the importance of social emotional learning and its impact on academic learning. Our staff will work collaboratively to increase continuity of instruction of social emotional learning and student connections across all divisions. Staff will continue to develop and foster student social emotional growth while challenging entrenched values and beliefs. This holistic growth, and collaborative approach to learning, will further benefit student academic learning.

Success is never guaranteed. However, by supporting each other, & demonstrating continued growth, our students will be better prepared for future challenges.

MISSION

We collaborate in the pursuit of each student's success as knowledgeable, caring, resilient, and contributing members of a global community.

VISION

Opportunity, equity, and success for ALL learners

VALUES

Respect

We foster respectful relationships that build trust, safety and well-being

Equity

We strive to build learning environments that are equitable, honor diversity and inclusion, are safe, caring and healthy places to work and learn.

well-being.

Integrity

We nurture a sense of self-awareness, responsibility and honesty to become environmental stewards and morally upright global citizens.

Accountability

We are accountable for ourselves, our students and our communities for professionalism, transparency and quality results.

Innovation

We create learning opportunities that are high quality, placebased, creative, and that encourage students to reach their full potential.

Strategic Priority | Equity & Inclusion

Goal

To increase student connectedness at school.

School District No. 6 Rocky Mountain

Early in 2021-22 we discussed what engagement may means and look like to students. Attendance is a way to track/measure but isn't always an accurate reflection of engagement. We will continue to monitor attendance, however, after extensive collaborative discussion we identified questions for surveying students that reflect engagement and attitude/feelings towards school. Our students, according to the survey, seem to feel welcome and accepted but there is some concern about 'students feeling good' when at EES. The staff are feeling like we need more extensive questioning and feedback to accurately assess growth.

Our staff will continue to look at ways to further connect and support students. We will determine a more extensive student survey by using questions from an evidence-based 'school belonging scale' to gather our information. We also plan to track office referrals & student participation in programs supporting social-emotional development and student belonging. With Truth & reconciliation being a focus we will be conscious of Indigenous student responses and identify trends that require additional support.

Intermediate Survey 2021-2022

time

Spring Survey Results

RESULTS FOR EDGEWATER ELEMENTARY

Never

| School District Average

ACADEMIC SELF CONCEPT

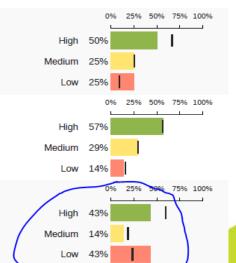

Children's beliefs about their academic ability, including their perceptions of themselves as students and how interested and confident they feel in school. e.g., "I am certain I can learn the skills taught in school this year."

SCHOOL CLIMATE

The overall tone of the school environment, including the way teachers and students interact and how students treat each other. e.g., "People care about each other in this school."

SCHOOL BELONGING

School belonging is the degree to which children feel connected and valued at their school. e.g., "I feel like I am important to this school."

Edgewater Elementary has had a growing population over the last number of years. Roughly 122 K-7 students projected for 2022-23 with 28 of them being selfidentified Indigenous students (23%). We have witnessed varying levels of student engagement and understanding towards inclusion and a sense of belonging. Through survey data collected in 2021-22, we identified that students only 'sometimes feel good' about being at school. We now plan to drill deeper into this feedback and support students where necessary.

Concept Focus

Increase a sense of belonging for all students with a specific focus on Indigenous students as a group.

Strategic Inquiry

To what extent will all staff providing programs to support student social and emotional needs (ie - 7 Indigenous teachings, Zones of Regulation, WITS – Walk away- Ignore-Talk it out-Seek Help, Afterschool primary program, Mentor program, extracurricular) improve students sense of belonging?

MEASUREMENT CYCLES

- School Belonging / Engagement Scale 3X (connection teachers, peers, oneself, learning)
- Monthly review at SSP mtgs
- MDI, SLS once per year

TARGET

75% of students score increases in School Belonging Scale (SBS)
 Decrease Office Referral:
 Baseline for participation (80% of students participate extra-curr)-matching increase on provincial measures

KEY DATES

Sept – baseline SBS data May – SBS final data Office Referrals tally – each reporting period (3X year) August Days – SEL support, school

Strategic Priority | Success for All

Learners (Literacy)

Goal

To increase student achievement in learning to read.

Fall 2020 PM benchmark scores we noticed concerning results for students entering Gr 2 (11 of 19 not meeting expectations). When we dug a little deeper, reviewing EES data and in early December 2021, we noticed **51% of all our primary students had a context score of 1 (Emerging).** This was an issue that we needed to address.

(Graphs scale) 1- Emerging 2-Developing 3- Proficient/Extending

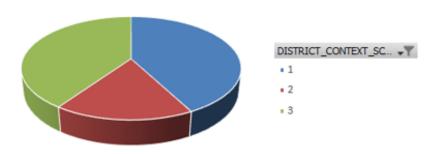

Primary Reading Scores – Gr 1-3 Fall 2021 – 42% emerging, 18% developing, 40% Proficient/Extending Spring 2022 –28% emerging, 8% developing, 64% Proficient/Extending

36% (8/22) of our emerging students in 'Fall' moved up to developing or higher. 72% (36/50) of students in 'Spring' scored in proficient/extending up from 58% in 'Fall'.

2021-22 Primary - Gr 1-3 (Fall)

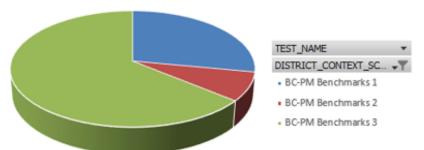

Row Labels	■ BC-PM Benchmarks	Grand Total	
1		22	22
2		9	9
3		21	21
Grand Total		52	52

BC-PM Benchmarks

2021-22 Primary - Gr 1-3 (Spring)

■ BC-PM Benchmarks	50
1	14
2	4
3	32
Grand Total	50

Once we noticed an issue with Primary Reading scores in 2020 we also looked closely at our Intermediate (Gr 4-7) results. Intermediate scale uses F&P benchmark scores, we again noticed concerning results. Roughly 50% of our Intermediate students scored 'emerging' on our Fountes & Pinnel reading assessment in 2020. Again, two years later, after a targeted focus on reading we are seeing noticeable growth.

(Graph scale - Fall 2021/Spring 2022)

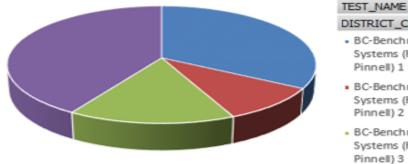

1- Emerging 2-Developing 3- Proficient 4- Extending

Intermediate Reading Scores – Gr 4-7

Fall 2021 – 33% emerging, 10% developing, 16% Proficient, 41% Extending Spring 2022 –24% emerging, 8% developing, 24% Proficient, 43% Extending

1 of 3 students in the Fall were emerging (17/41 = 33%) and in the Spring we had 1 of 4 students score 'emerging' (12/49 = 24%). 10% increase in students in 'Spring' that scored 'proficient/extending'.

- BC-Benchmark Assessment Systems (Fountas and Pinnell) 3

EES Int Students (Gr 4-7) Spring 2022

We noticed a significant decline in primary reading scores (mainly Gr 2 in 2020-21 with some outliers). At the time we attributed this to likely being interruptions in learning due to COVID. After further analysis of collected data, we realized reading needed to be a priority for all K-7. EES provided various targeted strategies in 2021-22 to specific identified student groupings. The growth was significant with these students (refer to data on next page). In 2022-23 we plan to further implement targeted reading strategies in every classroom.

Concept Focus

Improving reading fluency levels at each grade level.

Strategic Inquiry

To what extent will a staff wide focus on daily fluency strategies, with students, impact achievement in reading?

- 3 formal PM/F&P assessments
- -5 times a year reviewing classroom evidence – SSP mtgs
- Monthly tracking of targeted students

TARGET

- Increase % of students meeting grade level expectations for reading (be aware of small population influence)

KEY DATES

- -October / May formal assessments
- Jan informal assessment -Report Card dates informal assessments
- -Monthly classroom assessments on students with 1 as a context score

PROFESSIONAL LEARNING

- -Literacy VP sessions on supporting reading interventions -Time to collaborate -
- -Time to collaborate Primary F&P programming
 and resources, common
 language, practices for
 independent reading Observation/planning/discus
 sion on targeted reading
 practices

SUPPORTING STRUCTURES

- -Monthly SSP mtgs -Collaborative opportunities
- -LA/1-to-1/targeted support plan
- -weekly EA mtgs to support needy students(monitoring obj, adj strategies)

13

Strategic Priority |

Success for All Learners (Numeracy)

Goal

To increase student achievement in numeracy.

Numeracy Foundational Skills

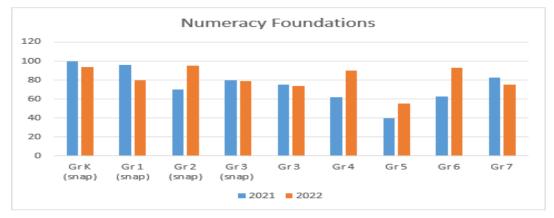

Our continued effort to develop basic number skills this past year has resulted in noticeable growth (Gr 5 cohort to Gr 6 – biggest gain). The data shows that we are almost at 80% proficient for most grades. We are seeing an alignment of 80% proficiency between foundational skills & results on district assessments & provincial measures. However, growth has levelled off. How do we continue to increase scores? We have a plan to support students by maintaining work on foundational skills and shifting focus to include numerate problem solving.

Gr 7 - FSA Results NUMERACY

These graphs compare 2020 & 2021. Reveals strong scores on Foundations Skills Assessment (FSA) in numeracy for 2020 Gr 7 (84% - 16/19 On Track or Extending). We noticed a % drop 12/16 (75% in 2021). Our foundational skill development focus, with continued improvement of scores over 80%, may further support growth on assessments like FSA's. However, a shift of focus to more numerate work, along with the growth witnessed in foundational skill development, should additionally support student success on FSA, classroom & real-life problem-solving ability.

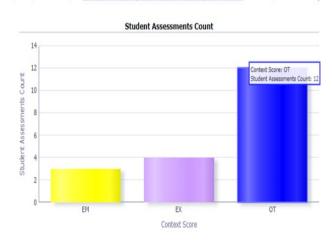

Graph represents percentage of students scoring 2 or 3 (assessment results – reference SNAP Rubric, Oral/Applied self-development assessment).

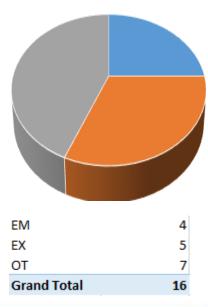

- 1- Understanding & application of learning standards not evident
- Significant understanding & application of number sense/foundational skills
- Proficient or extending of understanding & application of foundational skills

Gr 7 Numeracy (FSA)

(Graphs scale) EM-Emerging EX-Extending OT- On Track (proficient)

Total

15

School numeracy data demonstrated areas of opportunity for growth. We are also noticing an increase in numerate reasoning and an emphasis on the process of problem solving in assessments. Our students are having difficulty with solving problems and often the process of being able to show an ability to solve multi-step equations. A focus on numerate thinking will improve students' ability to deeper understand, make connections, and solve grade level problems in numeracy.

Concept Focus

Interpreting & Analyzing multistep problems.

Strategic Inquiry

If teachers practice weekly interpreting and analyzing authentic math problems will students' achievement improve?

FSA results – once year SNAP – 3 x per year Classroom assessment Reviewing students' samples at SSP mtgs

TARGET

(Gr 4&7) Increase in % of students with context scores of 2&3

KEY DATES

Oct / Jan / May - SNAP assessments Oct – FSA tracking (compare to previous year) Report Card classroom assessments

PROFESSIONAL LEARNING

-Aug Days Pro-D – Numerate thinking implementation / guidance (VP numeracy)
-EA training - how to support numerate thinking
-SD6 Learning Rounds???

SUPPORTING STRUCTURES

-Numerate resources
for all grade levels
-SD6 Intermediate
numeracy assess
-weekly EA mtgs to
support needy
students(monitoring
obj, adj strategies)

Strategic Priority |

Excellence in Teaching & Leadership

Goal

To improve instructional practice in Social Emotional Learning.

Current Research supports strong social emotional development and a sense of belonging as foundational to learning. Through scheduled collaboration opportunities teachers will share best practice and work to develop ways to improve social emotional student support within their classroom. The enemy of improvement is isolation (Fullen).

Concept Focus

Use scheduled collaborative release time and learning focused staff meetings (SSP monthly meetings) to promote staff reflecting and improving social emotional student learning in their classrooms.

Strategic Inquiry

Will providing monthly SSP meetings and teacher collaboration, with a focus on SEL, will teachers report an improved ability to teach SEL (Social Emotional Learning)?

MEASUREMENT CYCLES

-SEL teacher selfassessment (3X) -monthly reflections at SSP mtgs or collaborative groups (how is something in your practice aligning with SSP?)

TARGET

within classroom (embed)
-Decrease in classroom
mgmt. issues
-alignment of SEL
language, delivery,
programming within EES to
support students

KEY DATES

-Oct/Jan/June – SEL selfassessment -Monthly reflections – growth within classroom -teachers outline SEL instruction in yearly
